**The Challenges of Compliance and
Anti-Corruption**

The Challenges of Compliance and Anti-Corruption

Recife is the largest metropolitan area and one of the major economic and business centres in the North-eastern region of Brazil. "THE CHALLENGES OF COMPLIANCE AND ANTI-CORRUPTION" has been the main headline of all news and has rocked the foundation of its political and economic system in the past several years. This seminar will present a general overview and discuss the current hot topics of the anti-corruption legislation and compliance programs, by discussing the critical steps involved in a best-practices compliance program. In addition, this seminar will include discussions on (i) right tools to ensure an effective compliance program; and (ii) comparing and contrasting several compliance programs in force around the globe. We look forward to seeing you here!
